

## **Azerbaijan army opened sniper fire toward military positions at night**

04.05.2016 - YEREVAN. – The Azerbaijani side continued shooting toward the northeastern sector –i.e. Tavush Province of Armenia—of the Armenia-Azerbaijan border, from late Tuesday night to early Wednesday morning.

During this time the Azerbaijani armed forces mostly fired irregular shots at the Armenian position-holders, and by way of rifle and sniper weaponry.

The Ministry of Defense (MOD) of Armenia informed Armenian Newsu-NEWS.am that the Armenian armed forces, however, confidently control the situation along the border, and they take appropriate actions solely in case of targeted violations by the adversary.
