

Virendra Sharma urges Aliyev to stop using armed forces to draw attention from domestic troubles

YEREVAN, APRIL 16, ARMENPRESS.

MP Virendra Sharma in a statement to the UK government urges President Aliyev to stop using his armed forces to draw attention from his domestic troubles. "The conflict reigniting in the South Caucasus has the ability to risk the lives of thousands of people and it must be clear that the UK does not support or condone Azeri aggression. 1994 represented a step towards peace, but cross border attacks on Nagorno Karabakh have the capacity to force a step back in this important area. The compelling threat to civilians makes a speedy resolution more important than ever, and the death of children is a tragedy we have to avoid. As a long standing friend of Armenia I hope that President Aliyev will stop using his armed forces to draw attention from his domestic troubles",- as reports "Armenpress", stated Sharma.
